

Cold Gel from Lapland!

POLAR FROST[®]

With Aloe Vera

Polar Frost[®] Product Family:
75 ml Roll-on Bottle
150 ml Tube
500 ml Pump Bottle
5 g Sample Pack

**New Packaging!
Roll-on Bottle**

We have added a 75 ml roll-on bottle to the Polar Frost[®] product line. This container is convenient and easy to use. Massaging Polar Frost[®] into the skin is easy with the new roll-on bottle. The roll-on bottle provides hands-free application, so the gel does not come in contact with your hands.

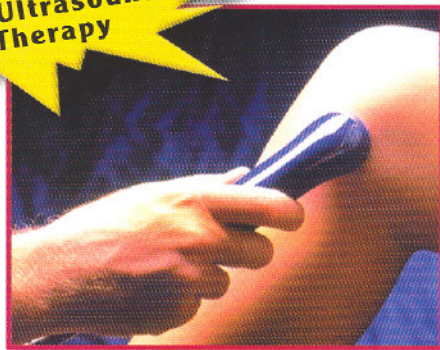

CE

Cold Treatment

Soft tissue, joint, stress injuries and muscle tension are often result of physical injuries or repetitive movements. These injuries frequently cause contusions and inflammations. Cold therapy has been proven to help relieve pain and increase mobility for many patients.

Therapeutic cold treatment is optimal when the skin temperature drops approximately 4 to 8 °C. With Polar Frost[®] the cold effect is maximised for a long period of time. Massage a thin layer of Polar Frost[®] Cold Gel into the painful area. Repeat application every three hours for 3-5 days, as needed.

**Polar Frost[®]
is Excellent
for Ultrasound
Therapy**

This gel absorbs fast and works quickly.

Polar Frost[®] Cold Gel is specially formulated to provide soothing relief for soft tissue injuries, stress injuries,

muscle tension, inflammation and stiffness. Aloe Vera has an anti-inflammatory effect and it keeps the skin smooth and moist throughout treatment.

Polar Frost[®] is manufactured under a strictly standardised production process using only the highest quality materials.
